DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species **1A**- drawn to Fig. 2, readable on page 6, lines 7-15, and page 7, lines 19-21.

1B- drawn to Fig. 5, readable on page 6, line 16 to page 7, page 8, lines 5-7.

1C- drawn to Fig. 8, readable on page 7, lines 3-12, and page 8, lines 12-14.

1D- drawn to Fig. 10, readable on page 8, lines 5-7.

1E- drawn to Fig. 13, readable on page 9, lines 3-5.

1F- drawn to Fig. 16, readable on page 9, lines 10-13.

1G- drawn to Fig. 18, readable on page 9, lines 15-17.

Sub species

2A- drawn to Fig. 25, readable on page 10, lines 10-12.

2B- drawn to Fig. 27, readable on page 10, lines 15-17.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (one of species 1A-1G and one of Subspecies 2A-2B) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. A telephone call was made to Christopher D. Agnew on 5/5/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 3729

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
